F o r e w o r d

IT has been our earnest endeavor to make this, the twenty-first volume of the Jambalaya, as complete a summary of the college life of the "Greatest University in the South" as is possible with only limited resources. We hope and believe that we have succeeded. The final decision is left with the readers of this volume. Please do not criticise us too harshly. Mistakes we have made, omissions could possibly have been corrected, but remember that we are all human, and to err is human. We leave you here, kind readers, to continue your review of the book.

Do not be too severe in your criticisms.

TO the Tulane students and alumni who put home ties, social activities and a business and college career aside to answer the call of their mother country to arms, and who so nobly served her throughout the Mexican crisis, the Twenty-first volume of the Jambalaya is respectfully dedicated. ❧❧❧

In Memoriam
Henry Fisher Rugan

H. F. RUGAN was born in Philadelphia, Pa., July 7, 1857, of German and Dutch-English Quaker extraction. He received his education at the Terre Haute, Ind., High School, and later graduated from Smithson College.

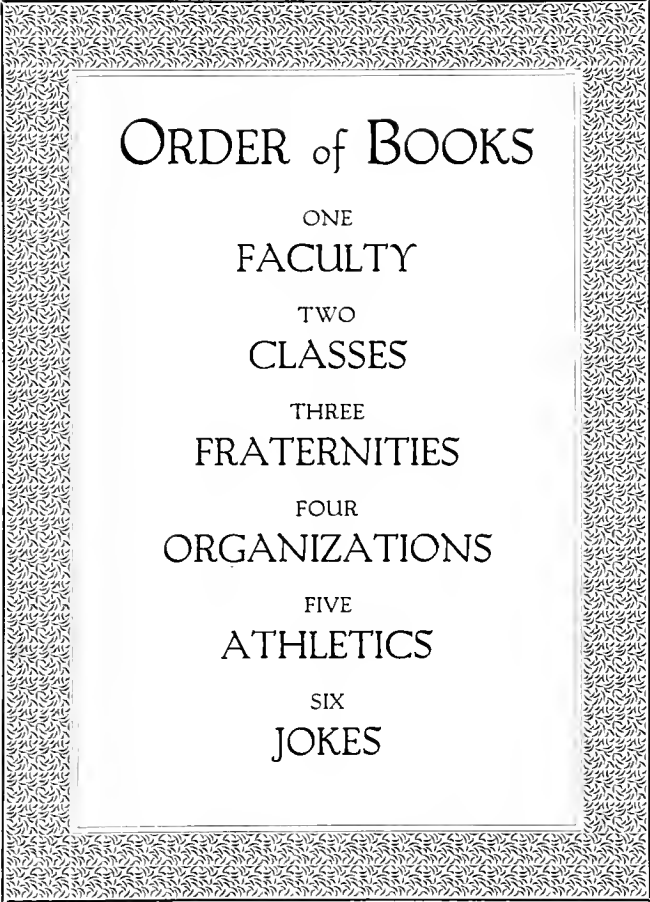

He was first employed on the Terre Haute & Indianapolis Railroad. He left that company to become Instructor in Mechanic Arts at Rose Polytechnic Institute. He remained there three years, and then left to accept a position with the Texas & Pacific Railroad, in Texas. Advancement with this company finally brought him to Gouldsboro, La. Here he left the employ of the railroad and became identified with the sugar industry.

In 1895, he accepted the position of Instructor of Mechanic Arts at Tulane, where he spent the last twenty-one years of his life, ending them as Professor of Mechanic Arts. He spent the session of 1908-1909 in Europe, and a report on his research work won for him the appointment to a Royal Fellowship at the University of Manchester.

He died at the Touro Infirmary in New Orleans on September 3, 1916.

Prof. Rugan was a prominent member of the Masonic fraternity. His wife and two children, Warren M., and Gethlyn, survive him.

Devotion to duty, sincerity of purpose was ever the keynote of a well-spent life.

NEWCOMB

BRANDT V. B. DIXON, A.M., LL.B.
PRESIDENT OF NEWCOMB COLLEGE

Newcomb Senior Class Poem

The time has come for the parting ways,
When we say good-bye to our college days;
Good-by old campus, friendly trees
Who spoke to us in each passing breeze,
Good-by, Arcade, where fun ran high,
To Chapel and fountain—all, good-by!
But saddest of all, as on we pass,
To our last farewell to our glorious class.
What is it '17 has done
For all her daughters, every one?
Ambition's noble spur she gave,
She bade us loyal be, and brave;
To love fair play; be ever true
To the highest aims of Bronze and Blue.
But best of all, it seems to me,
She taught us love and sympathy,
And so each one, as on she passes,
Pledges "Long life!" to the class of classes.

(1, 2, 3, 4); Secretary Y. W. C. A. (3); Dramatic Club (1, 2, 3, 4); Business Manager (3); Stage Manager (4); Latin Club (1, 2); Executive Committee (4).

*Now A. stands for Ayres—yes, Mary;
And A. for Athletics may stand.
And Ayres and Athletics together
Must surely make N. A. A. grand.*

OUIDA OPHELIA BARNES

New Orleans, La.

Alpha Delta Pi.

Arts and Sciences; N. A. A. (2, 3, 4); Latin Club (1); Class Tax Collector (2); Y. W. C. A. (3, 4); President Y. W. C. A. (4); Peace Polity (3); Debating Club (2, 3, 4); Sophomore Debating Team (2); Executive Council (4).

*The Newcomb Y. W. is forging ahead,
Making big strides each day.
If you ask me the reason, the answer is plain—
Ouida manages such a fine way.*

ROSA M. BEER

New Orleans, La.

Arts and Sciences; N. A. A. (2, 3, 4); Latin Club (2, 3, 4); Suffrage Club (2, 3); Glee Club (2, 3, 4); Debating Association (4); Menorah Society (4).

*Now Rosa's not troubled by worries or strife;
She just has two duties to do in this life.
They're chatter away like the "sparrow" she is
And laugh just the some over party or quiz.*

BERTHA SALOME BECKER

New Orleans, La.

Regular Professional Music; N. A. A. (4); Treasurer Music School, Student Body (2); Accompanist University Chorus Rehearsals (2); Accompanist Glee Club (1, 2, 4).

*Now, Bertha is not so exceedingly tall—
But just in a visual way is she small.
In a musical way no one can come near her—
Tho you can't always see her, you surely can hear her.*

Newcomb Senior Class

EUGENIE BIRD

New Orleans, La.

Arts and Sciences: Latin Club (1, 2, 3, 4); Treasurer Latin Club (1); Debating Association (4).

*This "Birdie" has gained quite a large local fame
As a songster (of course to live up to her name.)
In "high lofty subjects" her theme she does seek,
And carelessly chatter in Latin and Greek.*

RUTH E. BULTMAN

New Orleans, La.

Regular Art; Representative Art School (3); N. A. A. (1, 2, 3, 4); Vice-President N. A. A. (4); Art Basketball Team (1, 2); Class Basketball Team (3, 4); Captain Basketball Team (4); Varsity Basketball Team (1, 2, 3); Field Day Manager (3); Captain Baseball Team (3); Captain Varsity Baseball Team (3); Chairman Student Council (4); Executive Committee (4).

*If you are looking for someone to do the hardest work,
To tackle all the hardest jobs, one who you know won't shirk;
Someone alert to work or fun, whom trouble will not daunt;
Who'll stick by you thru thick and thin, then "Bult's" the girl
you want.*

RUTH COHN

New Orleans, La.

Arts and Sciences; N. A. A. (4); Suffrage Club (2); Glee Club (4); Dramatic Club (4).

*'Tis said she loves Herr Wespy so,
You'd think his class she would not shirk;
But he will never give her "A"
Because HE says she does not work.*

SOPHIE COOLEY

New Orleans, La.

Phi Mu.
Education; Home Economics (1, 2, 3).

*Whene'er we see Sophie she's carrying a bag,
A bundle or two and a box,
Some thread and some cloth and some needles and pins,
And all this she frequently drops.*

Newcomb Senior Class

FANNIE HAMPTON CRAIG

New Orleans, La.

Pi Beta Phi.

Regular Art; President Art Class (1); N. A. A. (1, 2, 3, 4); Secretary N. A. A. (2); Art Basketball Team (1, 2); Class Basketball (3, 4); Varsity Basketball Team (3); Field Day Manager (2); Y. W. C. A. (1, 2, 3, 4); Glee Club (2, 3); Mandolin and Guitar Club (2, 3); Dramatic Club (2, 3, 4); Student Council (3).

*She's a good, square player in basketball,
Declare all those who've fought her;
But the nicest thing about Fanny Craig
Is that she's her mother's daughter.*

NAOMI BEULAH DARTON

New Orleans, La.

Arts and Sciences; Class Treasurer (1, 2, 3, 4); Dramatic Club (1, 2, 3, 4); Suffrage Club (2, 3); Latin Club (2); Editor "Tulane Weekly" (3); Class Representative "Tulane Weekly" (4); Y. W. C. A. (4); Debating Association (4).

*You meet Naomi on the stairs a-coming from a quiz;
"Oh, let me see your work!" you cry, "or tell me what it is."
This "shark" will then hang down her head and sadly doth
she pine,
"Oh, I did badly," she replies, "I just got ninety-nine."*

LAURA AURELIA DISCON

New Orleans, La.

Arts and Sciences; Latin Club (1, 2, 3, 4); President Latin Club (3).

*Now, Mr. Leary tells us that we rarely, rarely find
A mixture of the scientific and the language mind.
But of this "rara avis" we have a specimen
And we're proud to point out Laura far above the lesser men.*

DELZORAH ALBERTINE DONNAUD

New Orleans, La.

Alpha Delta Pi.

Arts and Sciences; N. A. A. (1, 2, 3, 4); Latin Club (1, 2, 3); Dramatic Club (1); Glee Club (4); Debating Association (4); Mandolin and Guitar Club (4).

*On opening day Delzorah round did run,
Her schedule to arrange—it was a peach!
When Mr. Butler asked, "What! Education?"
This maiden blushed and said, "Well, I MAY teach."*

Newcomb Senior Class

ADELE MARIE DROUET

New Orleans, La.

*Her hands wave in the French fashion,
Her voice has a French accent;
But Adele can hold her hearers
When on debating she's bent.*

BIANCA MARIE FARNET

New Orleans, La.

Arts and Sciences; Latin Club (1, 2, 3, 4); Cercle Francais (2, 3, 4).

*In the Cercle Francais, as its name implies,
To speak in English the President denies;
But she no restriction on "music" lays,
So Bianca, to us, her talent displays.*

DOROTHY LEE FOWLER

New Orleans, La.

Regular Art; Class Vice-President (4); N. A. A. (1, 2, 4).

*Interior Decorator Fowler
Has not on earth a rhyme,
But that's what this Miss Fowler
Is going to be in time.*

HELENE OEHMICHEN FRIEDRICH

New Orleans, La.

Regular Art; Secretary Art Class (1, 2, 3); N. A. A. (1, 2); Art Basketball Team (1, 2); Art School Representative (1); Student Council (4).

*She dabbles in jewels semi-precious,
She works hard in silver and gold.
If orders keep flowing as now they've been coming
Helene will be rich when she's old.*

Newcomb Senior Class

GLADYS MAXEY FRY

New Orleans, La.

Regular Professional Music; Dramatic Club (1, 2, 3, 4); Dramatic Club Play (2); N. A. A. (1, 3, 4); Glee Club (2, 3, 4); Music School Representative (4); Student Council (4).

*When, like St. Cecelia, the organ she plays
And brings forth that music divine,
You never would guess when the music was done
What a gay, giggling saint you would find.*

RIETTA GLASSEL GARLAND

New Orleans, La.

Alpha Omicron Pi.

Arts and Sciences; Secretary Class (1); N. A. A. (1, 2, 3, 4); Y. W. C. A. (1, 2, 3, 4); Secretary Y. W. C. A. (4); Debating Association (1, 2, 3, 4); Jane Caldwell Nixon Debate (3, 4); Tulane Debating Council (4); Dramatic Club (4); Dramatic Club Play (4); Business Manager "Arcade" (3, 4).

*Debating, "Arcading," advertisement mad;
Psychology specialist—yellow slip sad.
This businesslike Senior has many a fad,
Each worse than the last, and she has 'em all bad!*

FRANCES GIRAUD

Austin, Texas

Kappa Kappa Gamma.

Education; N. A. A. (4); Debating Association (4); Dramatic Club (4).

*Like young Lochinvar, she came out of the West
And entered our class, bringing vigor and zest.
And the shower of her praises grows thicker and thicker.
Our only regret is she didn't come quicker.*

JEANNE GODCHAUX

New Orleans, La.

Arts and Sciences; Dramatic Club (1, 2, 3, 4).

*She and Clem together
Talk the whole day long,
But driving Heinrich fast to drink
Is really very wrong.*

Newcomb Senior Class

EDITH GLENNY

*Now, Edith is tall and has big brown eyes;
She is dignified, calm and serene.
She spends all her time in jewelry work,
And at Y. W. meetings is seen.*

FANNY GROS

Bunkie, La.

Alpha Epsilon Phi.

Regular Professional Music; N. A. A. (1, 4); University Chorus (1, 2).

*When the opera company stranded, Fanny quickly took the floor,
And she sent the crowd a-thronging with their money to the door;
And, looking towards the future, we can safely make a bet
We shall see her as a charitable "artiste" yet.*

GYFFORD KNIGHT HAINES

Always in a hurry;
Hair a-flying, looks a-tumbling,
Gyfford knows not worry.*

LOUISE HAUSMANN

New Orleans, La.

Alpha Epsilon Phi.

Arts and Sciences; N. A. A. (1); Debating Association (1); Glee Club (4).

*On our first day at college she gave us a start
By reciting her English (with dates!) off by heart;
And often she still makes us stare with surprise
When page after page she will memorize.*

Newcomb Senior Class

AMELIA JEAN HILL

Scotch, English, devilish Amelia Jean;

*She can cook in the kitchen or sew a fine seam;
She's a basketball fiend—Student Council claims her, too;
She succeeds at almost anything she ever tries to do.*

HAZEL JACOBY

Pensacola, Fla.

INEZ CATONIO

History of Class of 1919

IN Nineteen Hundred and Fifteen, the biggest mob I've ever seen, thought they needed some more knowledge, started in at Newcomb College. They paid their dues and did their part in everything right from the start; they introduced the ukulele, and played as well as "Old Bill Bailey," and don't let me forget to state, they won the Freshman-Soph. debate.

Our Soph. year started in this manner: The "Princess Pat" waved "Nineteen's banner; the Sophomores went without their dinner, but Tulane Night was sure a winner. It is no use to praise us more, as other classes might get sore. And as everyone knows, I ween, the fame and glory of "Nineteen."

Newcomb Freshman Class Poem

1920

Before us now stands twenty

In red and white array,
With "Optimus inter Optimos"

She will ever lead the way.
She's first in originality,

And first when she plays the game,
She is by far the best o'er all the rest,
As she marches on to fame.

Now Freshman is to Freshman

An enemy of hate,
While they are discussing questions grave
Which were given for debate.

'Twas in dramatics Freshmen starred,
In Glee Club Freshmen sing
And always the same, 'tis Twenty's name
Which makes the echoes ring.

Senior Arts and Sciences Class History

HEN four years ago, a sturdy and bold band of Freshies, one hundred strong, approached Gibson Hall, no one thought that these rowdy fellows would prove to be the best class that has ever entered the portals of Tulane University.

The Class of 1917 began well by dragging the Sophs through the murky and slimy water of the Audubon Park pond. The gallant green-capped boys then proceeded to overwhelmingly defeat the Sophs in wrestling, football, and basketball. This class became known not only because of its athletic, but also because of its scholastic achievements.

As Sophomores, the Class of the Blue and Black again won the right to paint the Tank by defeating the Freshies in four out of six contests. The first two of these ended in decisive victories for the Class of '17. The third resulted in a tie. We won the fourth and sixth, the Freshies took the fifth. And again '17 distinguished itself both in athletics and scholarship.

In their Junior and Senior years, this wonderful class upheld the pace set by it in the two first years. Many were the honors obtained from a political, athletic and scholastic standpoint. The Class of '17 brought forth varsity debaters as well as class and society debaters, and varsity athletic managers and varsity athletic stars. Every Tulane alumnus, who makes mention of the Class of '17, can only say "Well done, thy good and faithful servant."

All hail to the Class of '17, and join us in this, our rousing and victorious yell of:

"Rickety Rack, Rickety Rack,
Blue and Black, Blue and Black;
Best Class ever seen,
Nineteen Seventeen."

W. J. Wise, Historian.

Junior Arts and Sciences Class History

AS Freshman, the idea of a class history was received by us with great favor, because it gave us an opportunity to exhibit our bombastic abilities (the reader knows how a Freshman hates grandiloquence). As Sophomores, we were still obsessed by the vain desire to call the attention of the student body to our imposing presence in their midst. But now, as we are finishing the third lap of our college career and begin to see our goal in the distance, the vanity of our Sophomore year becomes readily apparent, and with true love for old Tulane, we cease to be so eager to push ourselves forward.

To exploit the glory of our illustrious class and the sublime glory of its illustrious and heroic career would take the pen of a Milton, and the resulting epic would of necessity be of prodigious proportions.

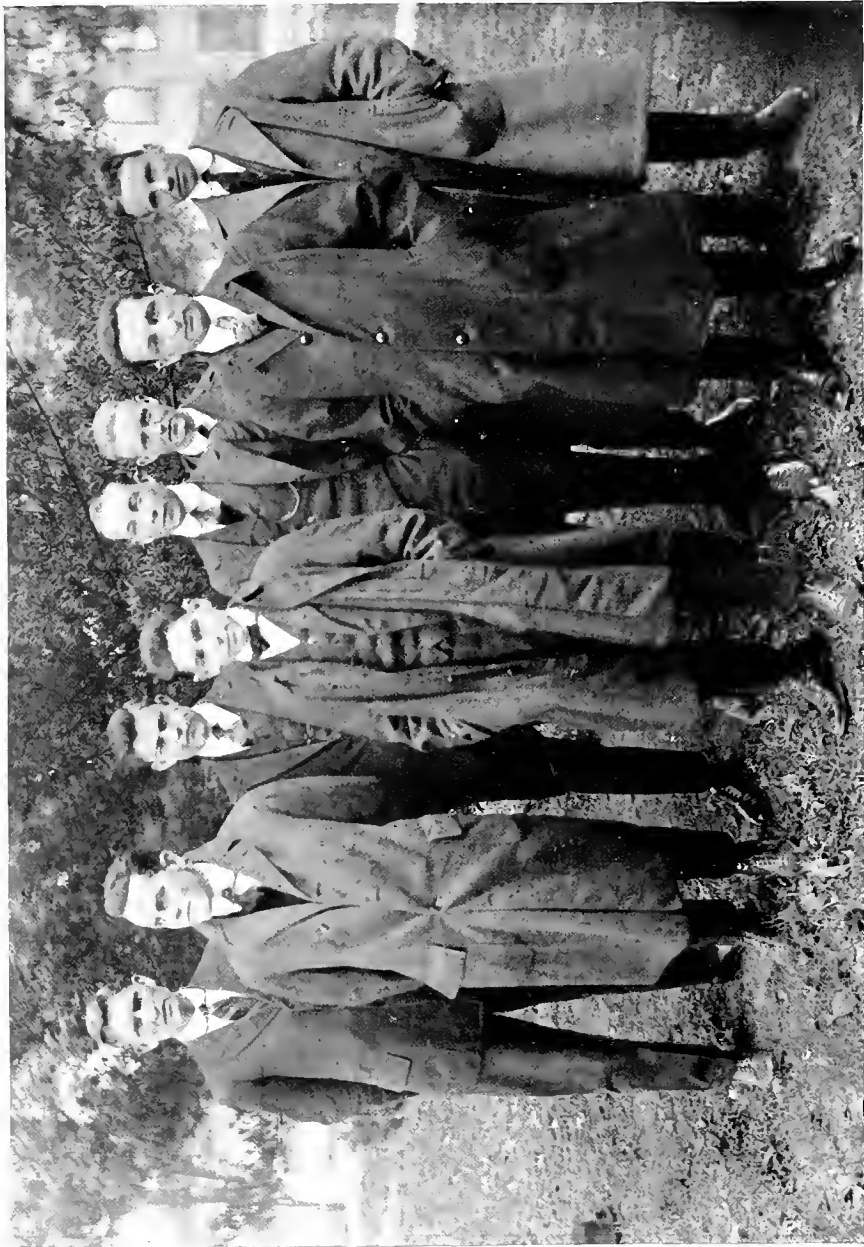

Whereas the supremacy of our class is mainly intellectual (a rather rare thing), it is by no means backward in athletic abilities. Of course, in some of the minor inter-class contests we came out second best, but in the major struggles we always gave a good account of ourselves, as the class of 1917 was forced to admit in their Sophomore Class History in the following excerpt: "We prepared to defend our laurels against the incoming boards of Freshmen. As to physical prowess, they were a little superior to—the Juniors. But credit must be given where it is deserved, for in the football game they held our much heavier team to a scoreless tie (the difference in weight was only twenty pounds to the man). When it comes to brains, the Freshies were right there with the goods, their debating team quite overwhelming our worthy speakers." This year the whole student body again showed recognition of our abilities by electing two of our members to the responsible positions of Manager and Assistant Manager of the 'Varsity Football Team.

Mainly through the untiring efforts of the class of '18, the much longed for new concrete stadium will be ready for use next year. Word now comes from Fair Newcomb that the work on her new buildings is being rushed so that 1918 shall go down in Tulane-Newcomb annals as the date of the dedication of New Newcomb as well as for the graduation of our illustrious class.

The historian may fittingly conclude with a little stanza (with apologies to Moses):

1918 is our number,
Excelsior is our creed;
In glory we will slumber,
For we've won in word and deed.

—*Histerian*.

Sophomore Arts and Sciences History

It was a memorable year for Tulane, that of 1915, when one September morning there entered its awe-inspiring buildings a class of two-legged beings who were destined to be "shining lights" and to carry upon their cranii those significant representations of learning, "the skull caps."

From the very start these "freshies," cognizant of the fact that they were now at the portals of life, girded themselves with the integrity, determination and fortitude of men, "putting their shoulders to the wheel" and vanquishing every difficulty besetting the pathway leading to the goal of accomplishment.

After passing through the stage of incubation when a green freshie is put through a stimulating process of "Trig" and "Analytics," they came forth in resplendent victories like a Lepidopterous butterfly from a cocoon.

Modest victories did not turn their heads, for they came forth always ready to give a helping hand when such was needed, and after shedding the "caps of learning," were designated as "Sophs" and as such have put to test this principle: "It is not the name that makes the man, but the man who makes the name."

A modest hero never boasts of ancient history; consequently, mere matters, such as kicking straight goals in rapid succession and putting forth masters of prize wrestling, such mere matters, my dear reader, are unworthy of our consideration.

The Sophs lost the tug-o'-war; but, no doubt, by this time, it has been duly circulated that it was through the entire consent of the above, because it was thought to be entirely too rapacious to pull a string of dear little green freshies through Audubon Lake on a cold October morn. It was decided that any such demonstration of antagonism might over-excite their dear little hearts and consequently our "Dear Old Olive and Blue" would be denied their royal presence.

Such has been the class of '19, and such it will continue to be, only awaiting the time when its heroic endeavors can be put to the test—when, after overcoming every obstacle, its members will go forth to join the mighty stream of Tulane's captioned men.

As we lift the veil of "what is to be," this is predicted: Just as in the days to come a splendid flag will upfurl on high, proclaiming the name of Tulane in a stadium—not like Harvard's or Yale's, but greater than either of these—so the "Tank," like a luminous constellation in an iridescent sky, will still proclaim the immortal class of '19.

EDWARD R. GSCHWIND, *Historian*.

Freshman Arts and Sciences Class History

O closely is the history of the 1920 Arts and Science linked with that of the Technology Department, that it is difficult to tell where one ends and the other begins. The First Year classes as a whole looked quite promising on the day of matriculation, as they were told when Dr. Dinwiddie "looked into their shining faces" and explained the honor system to them.

The promising looks were not deceiving. Hardly had they bought their books, when they were called upon to try their muscle against that of 1919 in the annual Tug-of-War. The Freshman team, half of which was composed of Arts and Science students, including Capt. Legendre, proved to be the best in two trials. A third was unnecessary, and beside, they were loath to being "pinched" by the park officials for marring the pond-scape with too much dredging.

The Arts and Science Class was prominent among the contestants of the inter-class wrestling match, where lack of training showed itself in defeat for the Freshman team.

In football too, they were represented, furnishing the Varsity, Cardoza and Legendre and several "scrubs." The Freshman football team had half a dozen A. and S. men on it, although this did not prevent their losing.

Their loyalty cannot be questioned. In every student activity, one may see numerous representatives of the green cap brigade. Tulane Night was an example, for if anyone there failed to know that the Class of '20 was present, he must have been both blind and deaf.

The Arts and Science of '20 also furnished two of the contestants in the Carnot Debate. Owen, one of these, won the medal, being the first Freshman who has ever attained that honor.

The class has worked and pulled together as one, and from all indications bids fair to stand foremost in the uplift and support of Tulane and its interests during the next few years.

Senior Technology Class History

INETEEN SEVENTEEN'S Class Historians for the past three years have chronicled her many and various achievements. Our last year at college has been devoted to hard and serious work, and the greatest glory of the class for this year is to be found in the efforts of its individual members, who realize the value of their opportunities and are striving to make the best of them, so that 1917 will be able to show, through the success of its members, that the purpose of Old Tulane has been realized in this class.

This last year has certainly been the most pleasant and profitable of our college career. We are more united in spirit, and the bonds of good fellowship have certainly grown stronger. We appreciate to a fuller extent the interest of the faculty in our welfare, and in fact have a deeper love for Tulane and everything that goes with her, so that it will be all the harder to say *Au revoir*.

Junior Technology Class History

SINCE that day when, oh, so many years ago, we were first privileged to make application for admission to that, we thought then, most important of classes, the Freshman, we have looked forward to this year, the Junior year, when we should get our first taste of the professional side of our respective professions, and surely the gentle reader knoweth that the College of Technology is distinctly professional!

We looked forward to the days when we should awake in the morning at the sound of the dear old alarm clock, bless it! urging us not to be late for that "train," and hearing at the same time the little roosters crowing, knowing full well that they would come back.

Then to delve into the mysteries of beams and columns, of mechanics, and of electricity, all those things that make life worth while, all the while believing that with all these behind us, that in the Senior year the path to the coveted goal, the B.A. (signifying Bachelor of Architecture), the M.E. and the C.E., would be well-nigh won.

But this purports to be a history, and we ramble. But in all histories we have our introductions, and so in this we would have the world know of the treacherous path we have had to tread, of the many times we have run panting to the "8:30 train," only to miss it by one or two names, all these things and many more.

As we now look back upon the completion of almost three years of our term, we feel a grateful feeling of duties well done, as not many classes have done them.

The Class of 1918 has taken her part in the history of Tulane in a manner well worthy of her, numerous duties she has fulfilled, numerous athletic teams has she been represented on, and we prophesy the conquering of many more of these difficulties.

And to close, with the shadow of war hanging low over our country, the men of the Class of 1918, College of Technology, will be there when the fight begins.

Sophomore Technology Class History

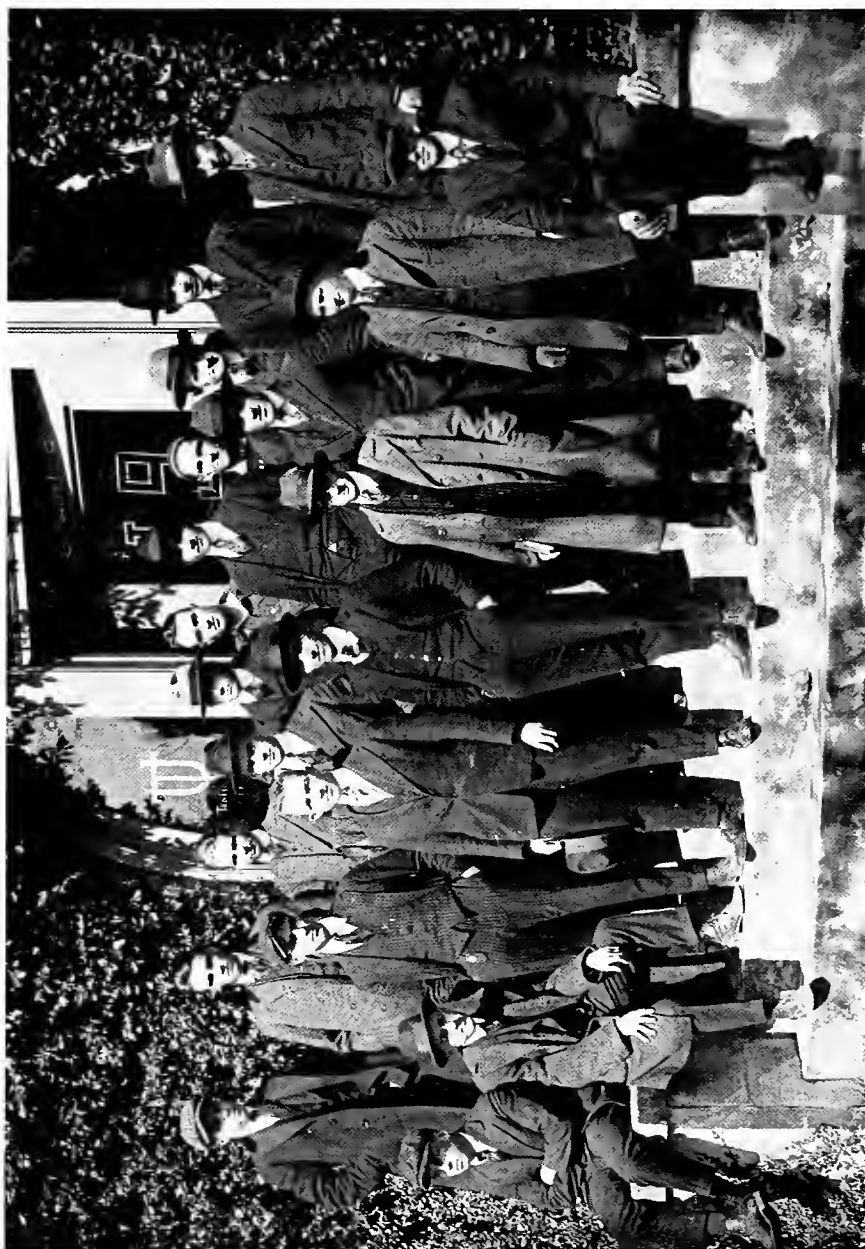

YEAR has passed since last we compiled a history giving the progress made by the Class of 1919. In that time many things have happened. The first, and one of chief importance, is the fact that our class successfully conquered the difficulties of our Freshman year, and though we came through with some of the old faces absent, we still have the grit and determination to forge ahead, in the hope of some day reaching the goal we are striving to attain. Speaking of "Freshman" reminds me of the fact that there is such a thing as a Freshman Class at Tulane this year. I had almost forgotten them, for they are so quiet and well behaved that you are not even aware of their presence unless by chance you notice the little green caps that dot the campus. No, gentle reader, they never speak unless they are spoken to; the term "model children" describes them accurately.

It may be well for me to give a summary of the interclass contests of this year. The "Freshies" won the tug-o'-war. You must agree with me in saying that encouragement is a good thing for youngsters. It is, and we hoped that by winning the first interclass contest they would gather some encouragement and satisfaction. But no; our kindness was misleading, for no sooner had they won the tug-o'-war than one insignificant Freshman, voicing the feelings of his fellow-classmates, shouted: "Just you wait and see; we are going to win everything else just as 'easily' as we won this." Well, what could we do? We could not convince them by argument that they were wrong, for a Freshman is incapable of appreciating and understanding sound reasoning. The only thing left for us to do was to demonstrate our superiority. We have done this and done it thoroughly.

In the wrestling matches they won naught but a single match, and that by default. The Freshman was too small to be matched. The football game was a repetition of the wrestling, a one-sided affair in which the Freshmen vainly sought to prevent the "husky" Sophomores from crossing their goal line more than six or eight times. The most recent contest, the basketball game, added another victory to our rapidly growing list. With but one more contest to win, you may rest assured that '19 will still be seen on the historical old tank for another year.

But enough of this. While the Freshmen amuse us, we have a more serious purpose in life than amusement. When duty calls, the Class of 1919 is ready to answer "Here!" In performing our duty, and by doing all that we can for the honor of our University, we feel that in this way, and in this way alone, will we be able to receive the full benefits of the work we have completed at Tulane.

The Class of 1920

These hallowed olive-leaved trees that grow
Beneath a dazzling sky of light and blue,
Bemock the man that treads the path below,
Wearing a cap of the self-same hue
With a bit of blue to represent a view
Of the horizon's limitless expanse
Of nothingness. Yet shall all eyes pursue
The magic olive's triumphant advance
And wonder at the Freshman on the Field of Chance.

A Freshman! How the world doth love the man
That men call Freshman! Is not sympathy
Forever molded for the Celtic clan
Who wear the green of Nature? They shall be
Monarchs of vast immortality,
Though persecuted. But to be concise,
"In hoc signo vinces!" Thy victory
Shall come, O Freshman! 'neath this green device,
Satan, with which, 'tis said, could conquer Paradise.

So when the year has sped her solemn course,
When the hour-bells cease their insistent clangorous
cry,
We, still arising with a conqueror's force,
Shall wear the Soph's own scalp; shall defy
The graven gods of slavish days gone by,
And show ourselves as champions of the right.
Then shall our far-sung glory never die,
Then Freshman here shall rule with conscious might,
As high-browed princes in these holy halls of light.

CHAS. PAYNE FENNER, B.S., LL.B.
DEAN OF THE COLLEGE OF LAW

Gone But Not Forgotten

IT is the inception of the conclusion. The Law School will soon be deprived of its most valuable group of undergraduates. No longer shall the attractive physiognomies of these embryonic solicitors be in evidence on the steps and in the corridors of our most beloved institution of learning. No more shall Gibson Hall enjoy a death-like stillness and quietude occasioned by the supreme vocal efforts of would-be stump orators and opera singers. Never again shall happy and delighted frowns adorn the foreheads of earnest legal instructors, while idiotic queries pour from the lips of the assembled (cl)asses. Nor shall ever be heard again the quiet chucklings of dignified laughter issuing from the depths of the n'er-to-be-forgotten "bull-pen."

No gentle hiss shall escape from the overheated steam pipes; no discriminating "flivvers" shall declare title to surplus nickels; no lecture halls shall serve as tonsorial parlors for the removal of immature mustachios; no blackboard ammunition shall fly unerringly to its human target; no snapping of fingers and exuberant exclamations shall add "interest" in the "study" hours; no merriment shall enhance the pleasures of reading in the library; and no wrestling matches and tickling parties shall disturb the otherwise uproarious behavior of the students. For

KNOW ALL MEN BY THESE PRESENTS, that on the uneventful day of June the sixth, the worthy members of the Class of Nineteen Hundred and Seventeen shall assemble for the purpose of severing active connections with their Alma Mater.

Yea, verily, it is with a sense of sincerest regret that this action has been deemed expedient, for now the deserving instructors must be robbed of the noble presences they have learned to love so well, but upon the heartless "profession" must be bestowed this wealth of brain and dignity granted to the chosen few.

But even though doomed to meteoric careers of affluence and prestige, happy shall be their recollection of their Alma Mater for whom they did so much; sweet shall be the memory of the appreciation so ably earned.

RAYMOND H. SALL, *Historian*.

An English Pessimist's View of Life

We can only be twenty-one once, don't you know,
We can only drink so much champagne;
We can only have so much fun, don't you know,
We can only have so much pain.
We've only one stomach to fill, don't you know,
We've only one life to enjoy;
One cheque-book to pay every bill, don't you know,
And soon we outgrow each new toy.
We've only one girl on the square, don't you know,
We've only one glass for the eye;
These things are the same everywhere, don't you know,
We've only one grave when we die.

ADALINE KATZ, '19.

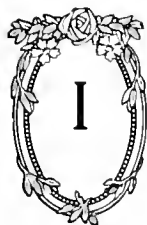

TULANE MEDICAL

ISADORE DYER, PH.B., M.D.
DEAN OF THE SCHOOLS OF MEDICINE AND PHARMACY

Senior Medical Class History

IN writing the history of the Medical Class of Nineteen-Seventeen, I can give only a few of the most important events which stand out most prominently in my memory.

It is not altogether a pleasant task to compile this history, as there are, intermingled with the four most pleasant years of our lives, many clouds of darkest doubt and deepest despair. Yet, now that we are nearing the end of our lives within the walls of Tulane, we look back upon these dark clouds, and, viewing them from another angle, can see the silvery lining which was invisible to the eyes of most of us during our earlier days.

At the beginning of the session of Nineteen-Thirteen and Fourteen, we applied for admission into the Tulane Medical School with that buoyant self-confidence of youth and the determination to master all the subjects of our chosen profession. There were many obstacles which prevented many from being enrolled with us, which fact has caused this class to be fewer in numbers than any class for years previously. The leading among these obstacles might be mentioned the rigid enforcement of the preparatory requirements, and also the great scarcity of finance which prevailed about that time.

I believe that I may safely say that the majority of us, feeling that we were among the chosen few, resolved to "put our best foot forward" and to get the most out of our course. Some of us have kept this resolution and have accomplished much, while others have forgotten it at times, yet we all hope that when the final test comes, it will be developed that we have not spent our time in vain.

Like all other classes, there were among our seventy-odd members at starting, many who could not stay the pace and dropped out before the session ended. Many others, no doubt, at times felt that it were wisest for them to follow the same course, but did not do so.

We entered into the work of the first year with great energy and perseverance, so that our work was, upon the whole, very good, and we accepted the not very frequent words of praise from our instructors with the feeling that some of them at least were earned.

When the time came for our final examinations at the end of the first year, we were too well known to our professors, and we are sorry to say that the pruning process cut off some of our members.

Roll call at the beginning of our second year showed that we had lost more than twenty men, and with the addition of only three new men, we began that most strenuous of all, the Sophomore year. I think that our work this year was of better class than before, for we had become more familiar with the studies and more thoroughly imbued with the Spirit of Tulane, so it was easier to work harder, and more was accomplished. There were many hard problems to solve, and we, like the thousands who have gone

before us, spent many weary hours over those fundamentals of Medicine which, I hope, in part at least with us all.

As all things must have an end, so must the Sophomore year, and finally this did come about. Now, indeed, were there days of restlessness and suspense while waiting to hear the result of our year's work.

With the beginning of our third year, we progressed to the new scenes, and interest was renewed, for we felt that now, at least, we were studying Medicine.

Our number this year was enlarged by the addition of several men from other schools, and we welcomed them into our midst. This year passed quickly, and we were allowed to enter the Senior Class.

We were sorry to learn that three of our members could not be with us, as they had answered the call to the colors, and were bravely fighting our nation's battles on the Mexican border, where we trust they are covering themselves with glory.

Now, that we are nearing the end of our college days, we trust and sincerely hope that our work shall pass muster, and that it may be said of us "Well done." May we go forth from these halls with the determination to conduct ourselves always as gentlemen, to love our profession, to aid our fellowmen, and to so conduct our lives that when we are finally called before the Great Physician, He too may say "Well done."

History of the Junior Medical Class

"Dere iss times ven too much iss enough."—Mrs. Katzenjammer.

Y the way, Chappies, you shall hear me say, even in the backwoods of South Carolina there is a certain process of thickening and thinning going on in every class, and such has been the case in ours, doncher see; but we will come to that later, as even Starling hasn't mentioned it so far.

Neither the proverbial snail nor a bloody tortoise has anything on this class when it comes to doing the slow-drag. From Freshmen to Juniors is a record hill-climb, and we are now muffled even unto the point of complete privation.

The Freshman year was rather chaotic. While we knew it all, of course, nevertheless, we began to unlearn especially during exams. We generally did the Steve Brodie, and managed somehow to scrape through, leaving only a few cicatrices.

The less said of the trials and tribulations of the Sophomore year, the better, for it was out of the frying pan into a flaming arc. We have a somewhat confused recollection of helling around so fast that a gyroscope would look like a Ferris wheel in comparison. The schedule ran somewhat as follows: Arise seven A.M., bolt 1 egg, 1 cup of coffee, 2 slices of bread, leave on the run masticating en route. Swallow and enter lab. No. 1. Do the Annette Kellerman in the gastric contents of a beaker of ox bile, chewing paraffin 2d lib. Expectorate paraffin, leave for lab. No. 2. Run a few fibres through the internal capsule, cross over to the motor area, nail a few nuclei to the floor of the Fourth Ventricle, and sprint for lunch. Gulp one red shrimp stew, consume three picayunes, and rush for lab. No. 3. Kill a couple of dogs with ether, send another to heaven with Digitalis, collect all viable instruments, and skid for lab. No. 4 Transplant a couple of billion bacteria, drop a microscope along with a culture of typhoid, stain your hands, your neighbor's coat sleeve, and incidentally a few organisms. Examine under oil, breathe in a few T. B. bugs, put out the lights and homeward plod your weary way. What did we do during the night? Well, "*Honi soit qui mal y pense*," and no vulgarity meant.

The Junior schedule is somewhat similar to the Soph, so far as hurried meals are concerned. Down town we read while you sleep, and sometimes when we sleep. Quizzes have become the habit to such an extent that the Profs all answer by questions. In this maelstrom of quizzes zeros crop up in the most unexpected places; sometimes it's really surprising. We must learn to make a differential count by palpation of a capillary, while simultaneously percussing out the number of glomeruli in the right kidney. The differentiation between Estivo-autumnal and Tertian rings is so simple that one member of the class can determine the lesions of Trichophyton Tonsurans by the use of the binaural stethoscope. It is also very pleasant, while detecting a cavity in the right apex, to be suddenly showered with a rain of Koch's Bacilli. Not being provided with umbrellas or gas masks, it is a frequent occurrence to see students in dark corners spraying their

throats with half and half. Many a cold and wet night we get up uncomplainingly just to witness the birth of a nation, while next day we must recite with punctuations, a half dozen different subjects, else we perish. Oh, Allah, hear our prayers.

The fraternities still hold their sway. The A. K. K. is still among us, while the ancient and honorable order of A. O. Q. has been revived with a full and skatolic membership, the password of the latter being "Vacuum or Bust." We have several members in the Senior Class. Individuals using a pump are strictly not admitted to the order.

Well, one more year, and we hope to graduate. How eagerly we look forward to the area of starvation when the unsuspecting public will listen respectfully while we solemnly assert that 2 boxes are equal to 3 stars, *et cetera*.

In conclusion, I shall tell you, let each and every one of us endeavor to intelligently and conscientiously treat every patient to the best of our ability. When he sticks out his tongue, Oh brother, with lightning-like rapidity, pull forth your trusty Pocket-Bradstreet and then, not until then, write his prescription, and one by one creep home silently to rest.

Sophomore Medical Class History

AFTER one year's development through the three-layer stage of Anatomy, Chemistry, and Minor Surgery, the Sophomore Class reassembled September 27 to undergo further development in the making of embryo M.D.'s. Some of the cells, due possibly to the lack of nutrient (?) did not fully develop, and a few new cells appeared. These new cells were not due to Karyokinesis, however.

Without any romance, but with many a sleepless night, we have tried this year to make a Physical Diagnosis of Nerveless Bacteria, so that we could write a proper Prescription, using the right Chemicals that would kill this great menace before any Pathogenic Lesion appeared on the Typographic Anatomy of man and thus necessitate a case of Minor Surgery.

Our class is one of exceptionally good workers, and there is seldom found such good fellowship as exists in this class, and while we do not make any unreasonable demands, we are always ready to stand together on things which we believe are right.

With regret we leave behind the artistic courses of the second year, the majestic environment of the campus, and some members of the Faculty whose friendship we will always cherish, to enter the more serious work which is to follow.

Historian.

Freshman Medical Class History

O the friends of Tulane, and especially those of the Freshman class, we are pleased to submit a brief account of what has transpired during our short study of the medical profession.

As pre-medicals we were told that we were undoubtedly the lowest down individuals on the campus, but now our followers will never be accused of this, for we have a still lower class in that of the Sub-Law. The Class of 1920, however, said not a word, but kept on plodding, completing the work laid out for them with honors that have never been equaled.

When the doors of the Medical Department opened last September we not only had our brilliant class of the previous year, but were enlarged by the entrance of others from here, there and the other place, which has not only increased our mental and physical standing in the community, but our social as well, for we have among us quite a few heartbreakers.

The most of us were under the impression that we were men, since we were starting out on a life work, but to our astonishment one of our dear professors hailed us by calling us his "babees" and expressing his hopes that we would all become his boys next year and would grow from year to year until we became his men.

This class is destined to be one of the brightest, if not the brightest, that have been in Tulane for thirty years, for we have all realized that our studiousness, coupled with our "God-given gift of reason" (both of which we all have), cannot be beaten.

There is a spirit of good-fellowship existing between the members of our class, as well as those of the upper classes, and when it comes to affairs of mutual interest or for the welfare of the University we all act as one for their promotion. And we hope to instill this into all succeeding classes.

Again reminding you that this is a class that expects to further enlighten the world, we beg to remain,

Respectfully,

THE CLASS OF 1920 HISTORIAN.

Senior Dental Class History

URING the latter part of September, 1914, some thirty students came to Tulane University to form the Dental Class of 1917. In this number several different nationalities were represented, and there were some men who held responsible positions. Many sacrifices were made in some cases in order that the student might prepare himself to pursue his life's desire. To-day, about two-thirds of the original number remain. There were several reasons for this. Some withdrew because the course was not as simple as it seemed to be, and with others adverse finances was the reason. Those who remained are in a position to know and to appreciate the responsibilities which they have elected to bear. I feel confident in stating that they will meet and conquer every problem which may confront them.

Success, which is our watchword, can be attributed to the splendid and thorough training which our Alma Mater affords us. No energy has been spared us in order to make us most proficient in our chosen profession, and I trust and feel sure that we will be able to uphold its standard.

After having had three years of Dentistry, we are now able to see the greatness of its field. We congratulate ourselves on being able to say that our professional life will be one of the most important. Our work reaches all classes, and we have to avail ourselves to care for their needs and relieve their sufferings.

Our class has done no wonderful things, nor has it established any brilliant records, but its efforts have been untiring, and it has always shown a spirit to listen and to learn from one who knows. We have always striven to be conscientious workers.

In closing, let me say "Farewell, Dear Old Tulane, but not good-bye; tho' our college days are over, we shall always cherish pleasant thoughts of the days spent within thy fold."

Historian.

WHAT OUR GRANDCHILDREN ARE GOING TO DREAM ABOUT

Kind friends, we take great pleasure in calling your attention to the cut appearing at the top of this page. It appeared in the cartoon section of the 1911 Jambalaya. It only goes to show that dreams sometimes come true, and a great deal sooner than we expect, for on February —, 1917, the first pile was officially driven for the buildings of "New Newcomb."

Not our grandchildren, but our younger friends and our children will attend college in these buildings. And when they are completed we can point to them with pride and say that a "Greater and a Better Newcomb" has arisen, and then surely no one can deny that Newcomb stands as high, if not higher, than any of the institutions for the higher education of the fairest of the fair in this great land of ours.

The plans of the new buildings appear on another page of this volume, and all honor is due to Dr. Dixon, the Tulane University Board of Administrators, and to the memory of Mrs. Newcomb for this wonderful addition to the "Greatest University in the South."

Kappa Delta Phi is a Junior-Senior society, organized for the promotion of college spirit at Tulane University. It seeks to obtain its object in two ways: First, by holding forth membership as a reward to those who have done more than the average man for their University, thus fostering and encouraging unusual effort; and, secondly, by binding together those who have made unusual effort, thus becoming a force for greater good by securing unity of action.

Tulane Summer Survey Camp

FOR the 1916 Survey Camp, Professor Derickson selected a plantation on the Y. & M. V. Railroad. The only reason that we can see for this is the abundance of barbed wire fences, which he so delights to clamber over, and because the climate was especially agreeable to his dog, "Butch." The tents were pitched on the edge of a pine grove, with a pond in the rear. The sleeping tents graced the brow of a hill in a row, the kitchen and mess tents reposed about half way down, while the refrigerator stood alone at the bottom. The Bath Room was necessarily placed in the woods.

So much for the situation of the camp. The discipline was most severe, and was enforced through the co-operation of the Chief and Professor Hogg, except on one particular night, when they failed to co-operate, and discipline was dispensed with for the time being.

Taps was sounded by Big Ben at 5:30 A.M. If you did not hear the taps you were sure to hear Sig's Russian War Hoop, "Slo Vin Koo." After breakfast the day's campaign was mapped out by the Major General, and the quartermaster dealt out the Artillery.

The army was divided into two parts. One was the calvary, which skirmished far into the surrounding country and had to push their steeds in order to get home for dinner. The infantry stayed closer home to protect the camp. After dinner the company's airship was taken out and each man made a short flight. Professor Hogg seemed to be the most successful flier, sometimes making several flip-flops before landing (see accompanying photographs).

A bon-fire concert was given just before leaving, at which Ralph Mann succeeded in charming the guests by his skillful playing. Refreshments were served and several exhibition flights given.

Finally, after two weeks' hard campaigning, the enemy was subdued, and the company embarked for home.

BOARD OF DIRECTORS

PROF. DOUGLAS S. ANDERSON

The Tulane Athletic Association has just passed through its most successful season, both financially and in regard to the success of the athletic teams contesting under its patronage. The student body as a whole have supported the teams much better this year than in the past, and the same can be said for the people of New Orleans. In the annual game with Louisiana State University, the largest crowd that has ever attended a football game in New Orleans was present. Every indication points to a still more successful season next year, as the long dreamed of Stadium will be a reality.

Review of the 1916 Football Season

BY MAX M. SCHAUMBURGER

LATE start and the absence of nine of last year's "T" men from the squad were not enough to keep the 1916 football season from being one of the most spectacular and eventful periods in Tulane's gridiron history. From the curtain-raiser against Springhill to the "slaughter of the innocents" by the powerful Georgetown eleven, the season was certainly a memorable one. Never before in the history of Varsity football had there been such a formidable schedule; never before had there been such a post-season game as that against Georgetown; never before had a game ended in such a battle royal as the fracas against Mississippi College at Jackson; and never before had Tulane and L. S. U. played to a 14 to 14 tie on Thanksgiving Day. All this happened during the 1916 season, and it will live long in the minds of all loyal Tulanians. I almost forgot to mention another important fact, for "Greenbacks" were invented by Manager Legendre, and the monotony of the "Olive and Blue warriors, etc.," was given a much needed rest by the sporting editors.

Coach Shaughnessy clearly demonstrated that it is worth while to keep a coach for more than one year, and that this was recognized by the T. A. A. is evidenced by the announcement that they have closed a four-year contract with the "smiling coach from Minnesota." Captain Victor Rosenthal, or "Just Plain Rosy," proved to be the "peppery pepper" itself, and his "gift of gab" backed by his good work at guard, were hopeful factors throughout the season.

What Tulane did to Springhill and Jefferson, everybody knows, and also what we did to the "fighting would-be ministers" of Mississippi College. On the other hand, everybody found out about that 45 to 0 victory (?) in the Georgia Tech game at Atlanta, as well as the story of the Rice that was not spilled at Houston, Texas. But how about that "thin red line" of the Alabama Maroons, touted to the skies, who came here ruling a 5 to 1 favorite over us, and left with the short end of a 33 to 0 score? In the words of the poet, "Gee, fellers, but that was some game." No, we didn't tame the haughty and naughty Tiger on Thanksgiving, but neither did the Red Stickville aggregation carry away the State championship. As to the wind-up on December 9, the mention of a machine called Georgetown, and with a particularly powerful fly-wheel called Gilroy, and 61 dots against a blank wall representing the "Greenbacks," will be, I think, sufficient reminder of a dark and gloomy day.

The future, however, dawns brightly before us. With Shaughnessy back to teach his tricks, a new stadium from which to be gazed upon by the madding crowd, a captain with the fighting name of McGraw, most of last year's Varsity men back in the line-up, a strong and attractive schedule, and the unqualified backing of the entire student body,

are factors against which Louisiana State will have to reckon on Turkey Day, and here's hoping that it will take many years for Doc. Stroud & Co. to forget that day of reckoning in 1917.

Football "T" Men

ROSENTHAL—"Rosy"

Cap'n Rosy. A mud hog on the line. A bear cat in the backfield. A hum-dinger on the end. A would-be winner of a motorcycle. A bum around college. A good, all-around fellow and football player, not to mention the fact that he is now an A-1 dentist in Tampa—we hope.

MCGRAW—"MAC"

Next year's Captain. The noisiest man on the football field and on the campus. It's a case of "there he is and there he ain't" when Mac gets the ball at half.

FAUST—"ED"

The fleet little quarterback with the blond top. Ed's a mighty fine kid when he is sober, and he never drinks. Figure this out for yourself, but those who know Ed don't have to figure.

BARNES—"HAPPY"

Hap was that other halfback. Boys, this is what the Lord loves—"the truth." Happy is one streak when he gets started, and Cooper found that out, believe me. He made them all sit up and take notice in the Alabama and L. S. U. games when he got started, and, don't you forget, he got started several times.

Football "T" Men

GALLOWAY—"EDGAR"

That there boy is some fullback. They didn't know that up-state, thank the Lord, and for this we are eternally indebted to our friend, Coach McDonald. He is a deserving country lad, and is some day going to be a dentist, and we sincerely hope that he will make the Kaiser, Pres. Wilson and a few others toothless.

SMITH—"BENNY"

"A" end. That boy is the "Ham what am" in the football line. The only difference between Benny and Brickly is that Ted has had more experience, and about 40 yards.

MERAUX "MEESTER JOE"

Boy, boy. That Plaquemine Parish, pore, puny person is some guard, and though sometimes somewhat slow, sluggish and slovenly, he is by no means slim, scared or senseless.

JERWICK—"PEP"

Handsome Harry will hardly forget the harrowing and heated games that he has played either tackle or center in. They tell us that Harry is so doggone lazy that he would sit for two hours and argue about the quickest way to do something that couldn't possibly take over twenty minutes to do.

Football "T" Men

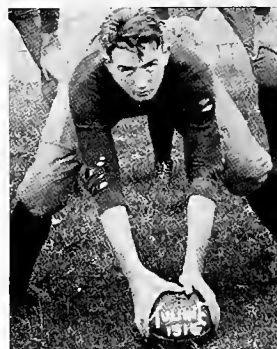

CARDOZA—"HANK"

He comes from Minnesota, where they must make a specialty of turning out football players, because Hank was an A-1 guard, and God knows he was a good guard; in fact, he was an All-Southern guard.

VAN STUDDIFORD "VAN"

They say as a center Van could not be beat; in fact, it was rumored that he could hold a whole line by himself, but, of course, we had to play eleven men in every game, so we did not have the opportunity to prove this statement.

COLEE—"OTTO"

A fierce, frenzied, fighting, French fullback and end. He was there, boys, and if the picture in the *Item* is straight (and pictures don't lie), Otto made a touchdown that we did not get credit for.

SHAUBURGER—"DUTCH"

Tulane's old reliable utility man. Dutch made his "T" this year, and we are all glad of it. He was some guard, and, take it from us who know, that Dutchman has some of the Kaiser's fighting spirit in him.

Football "T" Men

FOSTER—"JAWN"

A ticklish tackle. Jawn is from somewhere in Louisiana, and we want to know that if there are any more like him from where he hails, is how to get them to come to Tulane.

LEGENBRE—"MARION"

Here we see the Manager. And he was a good one. Didn't he take the team to Texas and to Georgia, and show them a good time, and still make money on the season? Marion asked us to leave him out of this section, but we just couldn't resist the temptation to show you his wonderful physiognomy.

Baseball Season of 1916

DUE to lack of a stadium, a playing field to practice upon, limited finances and a passive interest on the part of the student body, very little can be said of the baseball season of 1916. A fine schedule was arranged for, but this had to be canceled, and only a few games were played, with but poor success. As usual, Bruce Hayes coached the team, and it must be said that he did his best under adverse circumstances. The baseball season of 1917 has been done away with, but with a new stadium promised for 1918, Tulane will once more be represented by a winning team in this sport.

McNeill, one of the best college players in the South, acted as captain, and "Pete" Maihles was manager. "Ruff" Adams, Brockman, Hoffman, Smith, Collums, Duffy, Magruder, Dugas, Legett, and "Red" Adam, were the men who made their letters in this sport besides the captain and manager. We can only hope for the best next year and proceed to forget the past season.

A Review of the 1917 Basketball Season

THE basketball season of 1917 showed great promise of being one of the most successful that Tulane has ever had, but these expectations were not fulfilled. Tulane started the season with only two regulars from last year's team, but with such stars as Dabezies and Moenck out for the team, prospects certainly looked bright. Tulane started the season in great style by defeating the Y. M. G. C. in two well-played games. Then came the first defeat of the season, when St. Stanislaus won by a close margin on their home court. However, sweet revenge was not long in coming, as only a few days later the same team was badly defeated by our boys in the Tulane gymnasium. Tulane then started on her winning streak by taking two well-played games from Texas A. & M., and then followed by snowing Alabama under an avalanche of points in both games played with that University. The Y. M. H. A. of New Orleans was also defeated, and then L. S. U. paid us a visit. Edmonds, the speedy Tiger forward, was too much, and L. S. U. took both games. Tulane fought hard, but lack of practice, due to examinations intervening, proved too great a handicap.

Tulane defeated the Y. M. C. A. team and then left for their only road trip. Baton Rouge was the first stop, and again the Tigers were victorious, but this time the scores were much closer than on the previous meetings. The Shreveport Athletic Club was next visited and defeated by us, and then the crack State Normal went down in defeat before our boys. In this latter game the boys played the best game of the season, and the victory was a deserved one.

Clay, Wiegand, Moenck, Dabezies, McGraw and Legendre were the men who made their letters in this sport. Moenck and Dabezies were the stars for Tulane in all of the games played. Kenneth McLeod proved an efficient manager.

1916 Track Season

THE past season on the track was not a very successful one for Tulane. At the outset, Tulane suffered a great setback when Oakes and Jones were ruled ineligible to compete. Lack of a stadium to hold meets kept down the interest, and this greatly hampered everything.

The first meet was with Mississippi A. & M. at Starkville. We lost that meet by a small margin. Then came the L. S. U. meet. We also lost this one, after a hard fight for victory. In the S. I. A. A. meet, Tulane was not represented, as sufficient funds were not available to send a team away from home at that time. Tulane won second place at the S. A. A. A. U. meet held in New Orleans on Junior Day, and made a very creditable showing on Senior Day.

The following men made their letters in this sport: Tucker, in the sprints; McGraw, in the quarter; Stouse, in the half; McLellan, in the half; Captain Faust, in the mile; Breeland, in the mile; Allan and Justin Wolff, Todd and Ludwig, in the hurdles. In the field events, Simpson won his letter in the weights, Bott in the high jump, and in the broad jump Landry won his letter in the javelin. "Sleeter" Fick won his letter in the hammer.

Prospects for the 1917 team are bright. With such stars as Oakes, Jones, Galloway and Capers to help out the old men, it looks as though Tulane will once more regain her prestige in this sport, one in which she has always led.

A Review of the Tennis Season

FOR the second consecutive time, Tulane has ranked first among the colleges of the South in this sport. The same team which captured the Southern Intercollegiate title in 1915, held it against all comers in 1916, and bids fair to repeat in 1917, thereby gaining permanent possession of the handsome cups which have been in competition for a number of years.

The tournament was held the first week of May on the courts of the new Country Club, by the Tulane Athletic Association, under the auspices of the U. S. N. L. T. A. While the entry list at first held promise of there being several teams in the tournament, it finally narrowed down to two: Tulane and the University of Texas, which University was well represented by Palmer Bradley and Sellers Thomas. The Georgia Tech and L. S. U. entries were scratched.

Texas and Tulane, the latter represented by Henry Bruns and Douglas Watters, played against each other in the only match in the doubles, and, while it was Tulane from the start, the match was close enough to cause a great deal of enthusiasm among the spectators. In the singles, Bruns and Watters fought it out in the finals, both Texans being eliminated in the earlier matches. Watters walked away with the first twelve games and got a 5-2 lead on the deciding set. However, Bruns made a very determined stand here and evened the score at 5-all, but Watters ran out the set at 10-8.

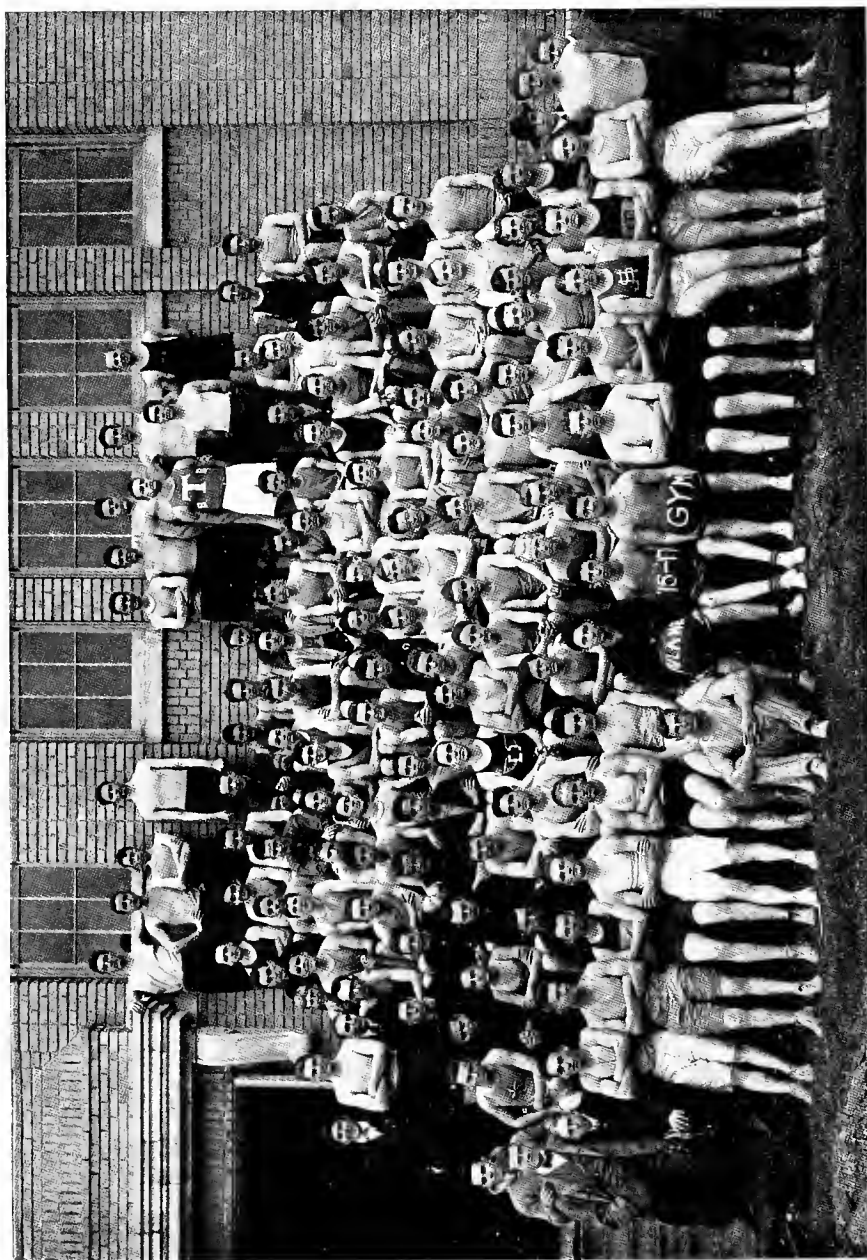

"Doug" Watters made the rounds of several large tournaments in the East last summer and did very well. He started by winning the Tennessee state championship, then went to Memphis, where the Southern championship was played, and repeated his performance, winning the most coveted of Southern titles. Paired with Henry Bruns, they almost won the Southern doubles championship, losing only after a hard five set match to Emerson and Hardy of Memphis.

"Doug" then played in the Narragansett Pier, R. I., tournament and lost in the semifinals to Watson Washburn, after being within two points of the match. Next he entered the Rhode Island State tournament and won the singles and doubles, paired in the latter event with H. A. MacKinney. At Newport, the next week, "Doug" stayed until the round before the semifinals, losing to the "Jap," Kumagee. In the National tournament he stayed again until the "last eight," losing to Norris Williams after taking the first set. Watters had, before leaving New Orleans, won the singles and doubles championship of the New Orleans Lawn Tennis Club, paired with Henry Bruns in the latter event, and was again ranked in Class B (20-30) in the U. S. N. L. T. A. ranking.

Henry Bruns is Southern intercollegiate doubles champion for the second consecutive year. He was runner-up to Edgar Morris in the Gulf States championship, and winner of the doubles in this tournament. He was also runner-up at Memphis in the Southern Doubles championship, paired with Watters.

Edgar Morris sprang the sensation of the Gulf States tournament by winning this event, after a thrilling match with Henry Bruns. Edgar was our mixed doubles shark, winning the mixed doubles championship of the New Orleans Lawn Tennis Club and of the Gulf States. He also invaded the neighboring parish of St. Tammany, and "copped" the singles championship with ease.

Arthur Watters, manager of the team, was ill during the Southern Inter-Collegiate tournament and was unable to play.

Physical Training Jambalaya Notes

AS a supplement to the Physical Training course, the Wrestling Tournament again takes the lead with close on to 100 entries at the beginning of the tournament in October. Up to the printing of Jambalaya the following students remain: *Paper*, up to 108, E. B. Gill vs. R. E. Lothrop, in the finals. *Bantam*, 108 to 115, L. F. Wakeman, F. X. Bostick, A. J. Bourgeois. *Feather*, 115 to 125, H. T. Bond, C. G. Devron, M. Edmonson. *Light*, 125 to 135, E. Mosley, R. Colbert, O. Landry, F. A. Miller. *Welter*, 135 to 145, E. W. Day, G. S. Brandon, G. Hawkins, H. J. Hubener. *Middle*, 145 to 158, D. B. Martinez, N. R. Peyroux, F. J. Grunewald. *Heavy*, 158 and up, R. W. Leach, J. L. Watkins, G. E. Siess, W. K. Capers, H. Coats, Simpson.

In the Thanksgiving and Christmas Gymnastic Club stag Tulane again won the majority of the medals.

The All Southern Amateur Athletic Association Wrestling Stag will be held in April and possibly at the Tulane Gymnasium. Last year the following students won gold medals: Thibodeaux, lightweight title; Perez, welterweight title; Bostick, featherweight title; Cassague, middleweight title; Smith, heavyweight title.

The following won silver medals: Bostick, Bourgeois, Heath, Hubener, Peyroux.

A large number of students intend to enter this year, and those who have begun daily workouts at the gymnasium are: Bostick, Edmonson, Wakeman, Bourgeois, Lothrop, Gill, Hubener, Cassagne, Leach, Watkins, Coats, Simpson, Jerwick, Brandon, Hawkins, Day, Capers, Devron, Peyroux, Grunewald, Smith, Heard, Heath, Perez, Brunor, and more will come out later.

L. de Beniditto, Secretary of the A. A. U., has informed Coach Hanson that due to the excellent showing and to a large number of Tulane wrestlers who have won and now hold All-Southern titles, that one of the best will be picked to represent the Southern A. A. in the National meet to be held in Portland, Oregon, this May.

In the elimination of the seventy-eight entries in the Single Handball Tournament the Scharff twins have brought themselves to the finals and must defeat each other to decide who will win the shirt and letter.

Several very useful pieces of gymnasium apparatus has been added to our already well-equipped gym. Our big ideas run to steam heat, indoor running track, and swimming tank. Donations are in order.

CHAIRMAN—This meeting has been called so that the fraternities can say frankly what they think of each other.

DELEGATE FROM ETA BITA PI—We want to thank the girls of Whoop Si for telling our rushees such nice things about us.

DELEGATE FROM WHOOP SI—Oh, don't mention it. Your fraternity is so much better than ours that we want to let the Freshmen know about it.

CHAIRMAN—Girls, it's so sweet of you to be so generous towards each other.

DELEGATE FROM KI YI—Madam Chairman, I'd like to announce that we are filling all the dates of that popular little Freshman, Gwendolyn von Sucre, and if the other fraternities want dates with her they'd better ask some of our girls to give up their engagements right away.

DELEGATE FROM SLAMBDA HOO—Oh! It makes me feel so remorseful to hear Ki Yi being so unselfish and noble, when I said something awful about one of their girls the other day. Boo-hoo-o!

CHAIRMAN—Now, my dear, tell us what it was. An honest confession is good for the soul.

KI YI DELEGATE—Don't make her say it. She's so “*high-strung*” it might cause her to become hysterical.

SLAMBDA HOO DELEGATE—O-oh—I'll—t-t-ell you—I s-s-a-id: “One of the Ki Yi's had rusty-colored hair. But I t-take it back. I realize that it's beautiful auburn.”

DELEGATE FROM FEE FO FUM—I want to tell you girls that our Grand President wrote to us and said it was a shame the way we had been taking all the good Freshmen every year; so this year we have decided to wait until the other fraternities have taken first pick before we choose.

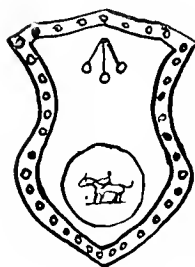

CHAIRMAN—Well, it's getting late, and as much as we love to stay at Panhellenic meetings, still we must adjourn.

DELEGATE FROM RANKY TANKA—Oh, do we have to stop now? I haven't had a chance to say all the nice things I wanted to about the other fraternities.

ALL THE DELEGATES—Well, Madam Chairman, you can go, and we will all stay here and have a party. We do so love the members of all the fraternities in Panhellenic.

A. D. 1917.

We shall now give you all the mis-information that we have gathered about Fraternities in our years at Tulane. After reading this, we hope you are not as confused as we are about them.

Kappa Alpha

Signifying—Knight's Armor.

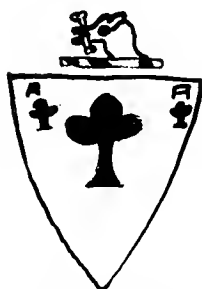

Founded—By the Ku Klux Klan, and the Salvation Army.

Number of Chapters—Mighty few.

Number of Members—Too many.

Motto—"Protect the Ladies First."

They used to have some good men, such as "Sleeter," but "Bo" is now the only lively one left. At last reports, the Alumni, who are some very prominent men, were trying to induce the fellows to let the chapter die a natural death. We hope they succeed.

Sigma Chi

Signifying—Sacreligious Community.

Founded—In Milwaukee, by Mr. Busch.

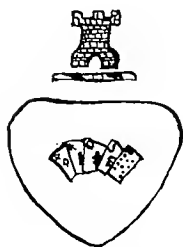

Number of Chapters—We never counted them.

Number of Members—Staggering.

Situation—Pathetic.

Motto—"In numbers there is strength, to say nothing of Johnnie Walker."

The Fraternity badge is in the shape of a cross, to signify the cross feeling of a Freshman when he finds that he has been double-crossed into joining that awful organization. Our football manager was a Sigma Chi, but he can't be blamed for that.

Alpha Tau Omega

Signifying—All Thoroughly Obnoxious.

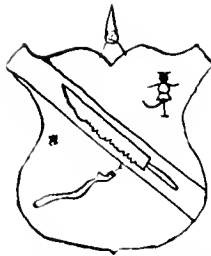

Founded—On the "Prairie Belle" when it was tied up in Kentucky.

Number of Chapters—As a college man, we blush to give you the number.

Number of Members—As a loyal Tulanian, we are ashamed to say.

Motto—"Always keep a straight face."

All members of this fraternity are members of the Back Steps Club, and Posey can remember when he didn't have a gym or a new Tech. building or a new Library. The policy of this fraternity is one of conservatism. They will rarely open on less than four

Sigma Nu

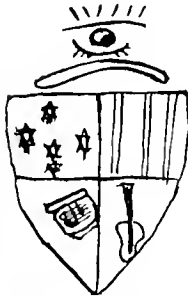

Signifying—Secretly Numskulls.

Founded—At the Getna Hill School.

Number of Chapters— $68\frac{1}{8}$ (the $\frac{1}{8}$ at Tulane).

Number of Members—Nobody seems interested.

This fraternity furnishes a home for the homeless at Tulane. If you are a Freshman from out-of-town, see these men and you will be sure to be asked to their fraternity.

Delta Tau Delta

Signifying—Drink 'Till Drunk.

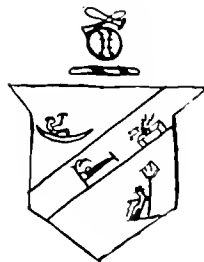

Founded—In haste, by somebody who may have meant well.

Number of Chapters—Oh, several.

Situation—Discouraging.

Motto—"Alhoe Aleec."

This fraternity has the reputation of being the most self-satisfied in school. This is a lucky thing for them, because a fraternity likes to feel that somebody is satisfied with it. We might add, however, that the boys always were rather easy to satisfy.

Kappa Sigma

Signifying—Kinda Sick. (They mean, Very Sick, but are too modest to admit it.)

Number of Chapters—They don't seem to know.

Number of Members—Nobody seems to care.

Situation—Ridiculous.

Motto—"Have you a little Ivory in your dome."

Though most of them are red-headed, they are fairly nice boys at that. In looking over the old men, we wondered how they ever got new men, until we saw the new men.

Phi Delta Theta

Signifying—Private Drunks Taken.

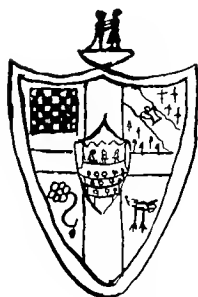

Number of Chapters—We can't count that high.

Number of Members—They are ashamed to tell.

Situation—Serious.

Motto—"If you kid me, I'll reform."

The Phi Delt's have a real pretty house situated in the woods out State Street, "Juno" told us that the frat. was founded by several ministers. It is only necessary to look at this seal to find that out.

Sigma Alpha Epsilon

Signifying—Stewed After Eight.

Founded—In Alabama, when it wasn't a prohibition state.

Number of Chapters—Two-thirds (as far as we have been able to find out.)

Number of Members—Count 'em yourself.

Motto—"In onions there is strength."

The seal is a mystery to us. The pin, however, bears the device of the lion of S. A. E. crouching at the feet of Minerva. At present there is an agitation in favor of changing the figure to that of John Barleycorn. We believe that it will succeed.

Delta Kappa Epsilon

Signifying—Dealth Knell Evident.

Founded—A long way from Tulane.

Number of Chapters—Unimportant.

Number of Members—The greater number of these are still more unimportant.

Situation—Very precarious.

Flower—Red rose. Meaning love.

Motto—"Every knock is a boost, we hope."

D. K. E. is undoubtedly dying, but they should not despair. Looking across the dreamy horizon of fancy, we seem to see a guardian angel approaching. The longer we look, the longer she approaches. Well, there's one born every minute. Maybe some of next year's Freshmen can be ensnared.

Phi Kappa Sigma

Signifying—Pints Kept Secretly.

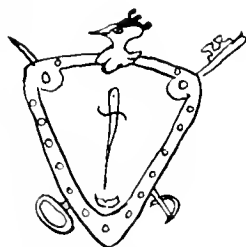

Founded—By accident, we hope. We'd hate to think of such a thing as malice aforethought.

Number of Chapters—At least one too many.

Number of Members—We don't like to state.

Motto—"Non compos mentis."

These boys live in a house belonging to the University. It used to be the University hospital for the sick and demented. It is now leased to the Phi Kaps.

Pi Kappa Alpha

Signifying—Puny Kid's Association.

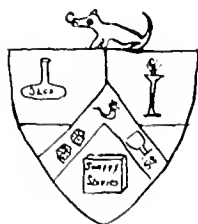

Founded—With good intentions.

Number of Chapters—Quite a few.

Number of Brothers—About four, the other two being members.

Situation—Critical.

Many of the men in this fraternity are members, the others are brothers. Rumor has it that the fraternity house is situated on Broadway and Maple Streets. "Axel" is a member, but he can't be blamed for that.

Beta Theta Pi

Signifying—Bonds Threaten Property.

Founded—Originally a woman's organization, founded by Miss-Take and Miss-Calculation as a Sorosis society.

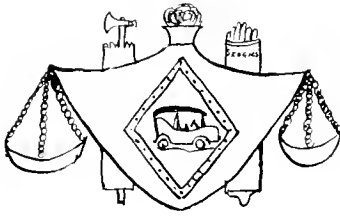

Number of Chapters—6,163 (these figures were given us about two months ago, and probably fifty have been added since.)

Number of Members—About the average.

Situation—Heart-rending.

We don't know what the Beta's are going to do now, that Bob is going to leave college. However, Archie has returned, and that will help out. If you want to marry while in college, become a Beta, they seem to know how. Arethusa, the famous hound of the Bater-villes has disappeared, and since this famous watch-dog has left there has been no robberies of the house.

Zeta Beta Tau

Signifying—Zula Boy Touts.

Founded—At Churchill Downs, Africa.

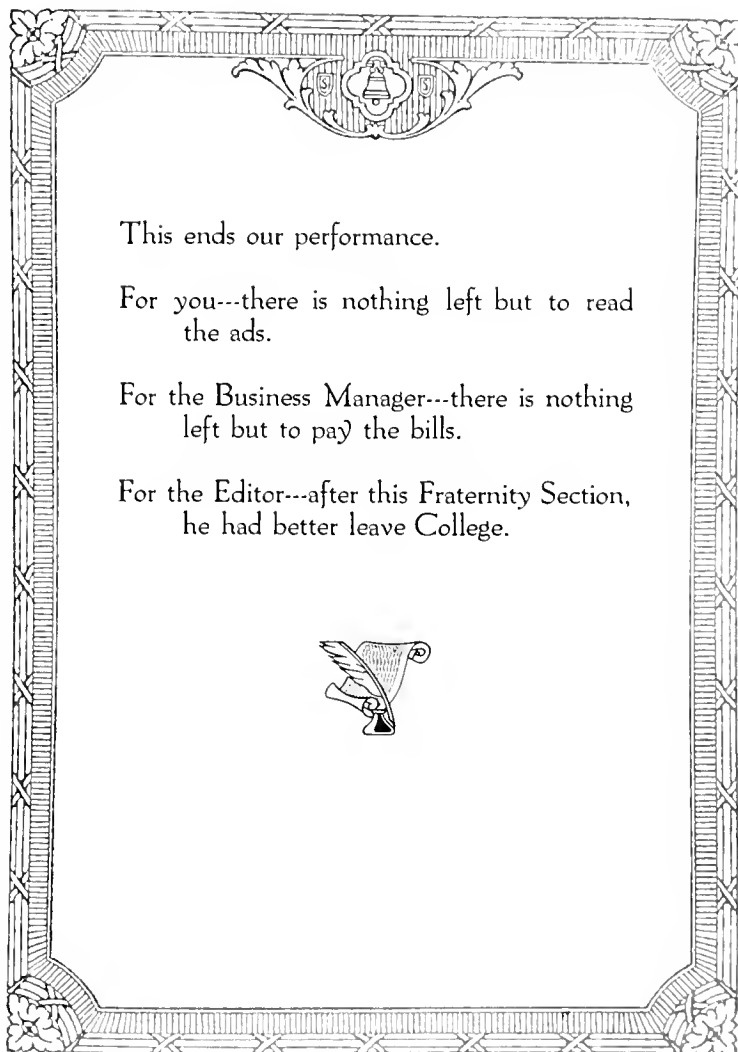

Number of Chapters—Very few.

Number of Members—We don't know. (They don't, either.)

Situation—Terrible.

As the name signifies, these boys are great followers of the "sport of Kings." That's why they haven't got a house. Hart tried to reform them, but found them in such a decayed state that he went back home in despair. They still have Allan, who thinks that he is a hurdler. We hope this gets by "Fritz," who is supposed to read it.

This ends our performance.

For you---there is nothing left but to read
the ads.

For the Business Manager---there is nothing
left but to pay the bills.

For the Editor---after this Fraternity Section,
he had better leave College.

"ROYAL 10"

\$100

*Royal Master Model Ten—
the typewriter of perfect presswork*

Other men judge your letters just as you judge theirs

Generally it is not your fault, nor that of your stenographer, if a letter goes out poorly typewritten, the lines uneven, letters faint or jammed clear through the paper—

But the man or firm getting that letter may have no other way of judging *you* and *your business*.

You judge *others* in just the same way. You've seen letters written on the Royal, most likely.

That even, smooth, beautifully legible print truly has *personality* in it.

The Royal is instantly adjusted to the individuality of the operator. A little thumbscrew does it—and the operator forgets there is a machine between fingertips and paper.

That's only *one* reason why the Royal is the choice of "big business."

The Royal not only writes everything, but it bills and charges, and it writes cards—writes anywhere and everywhere on a card—without a single extra attachment or the least change. When you install a Royal you end the "trade-in" evil of the typewriter business.

The Royal is built to live long, and it is built to give such unchangingly satisfactory service that you'll never want to trade it. For the same reason it keeps the repair man away. Work goes on as it should. Your stenographer is pleased with that, and also pleased because the Royal is practically *frictionless* and *dustless*—it requires much less cleaning and oiling.

Get the facts. Know the Royal, whether you need one or a hundred typewriters, or whether you are considering a purchase now or not.

A demonstration takes but a few moments. It places you under no obligation—we'll thank you for the opportunity.
